

Full Finish Adjustable Wrenches with Flank Drive[®] Plus Wrenching System

FADH702A
FADH704B

Adjustable jaws "bite" into the fastener for more turning power with less risk of tool or fastener damage

Features and Benefits

- **New** full-finish, nickel-chrome, plating helps protect against corrosion and make it easy to wipe clean
- Manufactured from special alloy steel, precision forged, and heat treated for optimum strength & durability
- Elastomer handle surface is soft, yet provides a nonslip gripping surface even for greasy and oily hands
- Cushion handle insulates against cold temperature

CE – Not Required

Country of origin: Spain

FADH702A FADH704B

Additional Features & Benefits

Quick reference fractional and metric sizing

Sized for optimum balance and comfort

WARNING

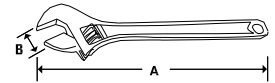

- Wear safety goggles (User and Bystander).
- Do not use "cheater bars" on handles
- Plastic handle does not protect from electric shock

Read additional safety warnings on pages W1 to W4 in Catalog 1300
